

Introduction to Data Visualization With Tableau

two public workshops on Wednesday February 11, 2015

Tableau has rapidly become one of the most popular data visualization tools on the market. On Wednesday, February 11, the **School of Communication** and the **Center for Computational Science** are hosting two identical sessions of this introductory workshop, which is part of the **VizUM** event series. Attendance is free, and no previous experience with Tableau is necessary.

Please **SIGN UP** for **ONE** of the sessions at:
